Explore The Success Stories of Our Clientele

Enabling Personnel Information & Payroll Management For Nigeria's Government Workforce

Client: Office of the Auditor-General for the Federation (OAGF)

Project: Integrated Payroll & Personnel Information System (IPPIS)

The IPPIS is a software application that combines human resources and payroll management into a single system. This system was designed for the Office of the Accountant General (OAGF) on behalf of the Federal Government of Nigeria (FGN) to automate Personnel, Payment, and Payroll Management for the FGN's workforce.

What we did: **Consultation, System Architecture & Design, Development & Deployment, Data Migration & System Integration, User Training, Ongoing Maintenance & Support.**

Digitizing Corporate Governance for the Kwara State Government

Client: Kwara State eGovernment Infrastructure

Project: Kwara State Government

The eGovernment Infrastructure project is aimed enhancing service delivery in Kwara State through the integration of technology. It included G2G solutions like Tax-Administration and Revenue Collection Systems to improve communication and cooperation between KWSG MDAs, G2B solutions for Ease-of-Doing-Business Reforms and One-Stop-Shop Investor Solutions to facilitate transactional relationships with businesses, and G2C solutions such as Electronic Identification systems and Property Registration Solutions tailored to social sector management needs.

What we did: **Business and data analysis of KWSG capabilities and processes, Integrated Marketing Communications, Digital Strategy & Transformation, Systems Development and Deployment, Management and Technology Consulting, System Integration, User Training, Maintenance & Support**

Case Study 2

Equipping The Nigerian Army for Its Fight Against Insurgency

Client: **UAV Deployment**

Project: **The Nigerian Army**

Louer Group was brought in to provide the Nigerian Army with UAVs equipped with advanced sensors and imaging technology for real-time intelligence gathering and surveillance. These drones are capable of flying at high altitudes and in adverse weather conditions, making them ideal for tactical operations in various terrains. The group customized the drones to meet the army's specific needs and provided training to personnel on how to operate and maintain them. The Nigerian Army is now using the drones for operations aimed at quelling insurgency and other security threats.

What we did: **Consulting, Deployment, Training**

Designing the Blueprint for Kwara State Government's Foray to eGovernance

Client: Investment Promotion Enabling System (IPES)

Project: Kwara State Government

The Investment Promotion System was developed as the initial phase of Kwara State's eGov transformation, aimed at enhancing its financial position and enabling other initiatives. It encompasses various features and functions, such as facilitating the accessibility of business procedures and policies for existing enterprises and investors, establishing a repository of investment prospects within the state, and merging all pertinent processes and data points from relevant government agencies essential for investment acquisition.

What we did: **Consulting, Strategy, Stakeholder Sensitization & Training, Systems Integration, Development & Deployment**

Why Louer Group

► **Trusted**

We have worked with over fifteen (15) government and international agencies across three presidential administrations in Nigeria. They all testify that we delivered.

► **Cutting-Edge**

We use the best, most efficient technologies to create the solutions our clients need, even if we have to build them ourselves.

► **Versatile**

We use a blend of different highly-specialized but complementary skill sets to bring each project to life.

About Us

Louer Group is a leading consulting and technology services provider. We help organizations navigate the ever-evolving landscape of the 21st-century digital space.

Our expertise spans public and private sectors across global, national, and emerging markets, addressing diverse challenges in digital transformation, eGovernment, and more.

► **Our Purpose/Why:**

We exist to build strong systems that promote equity, efficiency & human flourishing.

► **Our Vision:**

To see the rise of strong nations and enduring corporations all over the world.

► **Our Mission:**

We are on a quest to help governments protect the integrity of their systems in a digital age, and work with corporations to build competitive advantages in a rapidly evolving world.

► **Who we are:**

We are ENABLERS. Like the invisible winds that drive the ships of the great deep, we pride ourselves as the behind-the-scenes partners for building strong nations and enduring corporations.
